ALL PROFITS FOR POLICYHOLDERS

Tourist Praise
And Criticism

"Keep its Englishness," "People have tendency to drive in middle of road," "Not one criticism," "Island Highway spoiled our whole trip," they say.

Following are extracts from questionnaires sent out by the Victoria and Island Publicity Bureau seeking views and suggestions from summer tourists and inquiring what features appealed to them during their visit: "Not one criticism."

"I'm a garden enthusiast and so feel it a great privilege to visit Victoria. Perhaps a little too much red tape in boat transportation from Victoria."

"I am inclined to feel a high percentage of your people catering to tourist trade try to hold up the tourist as much."

"No criticism whatever, except the weather."

"Your ocean park in Victoria is interesting."

"Have heard of Victoria all my life and wanted to see it."

Was very well treated at information bureau. Girl at counter gave me at least an hour of her time. "We swim and fish and play golf." "We were told by friends we must not miss Victoria."

"Some of the roads are a bit chucky."

"Congratulate you on your courteous officials."

"We thoroughly enjoyed Oak Bay links, Uplands and Colwood."

"Good fishing and clam digging."

"We have a penchant for Vancouver Island."

"Keep its Englishness without being too conservative."

"Beauty of island and variety of pastimes."

"Object to the wholesale destruction of your forests by the lumbering interests."

"Went to Vancouver first, but liked Victoria much better."

"Condition of Malahat Road was so bad we all got disgusted."

"The road from Nanaimo to Victoria spoiled our whole trip."

"Very good service on boats."

"People seem to display a tendency to drive in the middle of the road."

"You 'follow the birds' sign brought me to Victoria."

"You should endeavor to retain the pleasing English atmosphere of Victoria. Beware the tendency to become Americanized."

"Was thoroughly pleased."

"It is a recreation to visit a quiet, leisurely, well-ordered, charming place with a slight foreign flavor."

"I think the asking prices of most antiquities are a bit raised for local American consumption."

"We found people willing to go out of their way to be courteous."

"Only objection is to attitude of American customs and immigration officials."

"Object to condition of highways."

"It is the quiet English manner that makes the big appeal."

COLWOOD

The monthly meeting of St. John's W.A. will be held in Colwood Hall on Wednesday, April 10, at 2.30 o'clock. The first game of the inter-school basketball league was played between Happy Valley and Colwood on the home ground on Tuesday.

Happy Valley—W. C. Rhodes (captain), J. Blenkinsop, Alex. McKay, Robert Clark, and Kenneth Duncan. Colwood—George Wishan (captain), George Chow, guard; David Deppes, forward; David McLean, guard; Kenneth Hannan, forward; Jack Jamieson, spare; Bruce Milburn, 21 to 16.

NEW SETTLERS
HERE IN JUNE

First Party of English Boys to Settle Near Duncan, P. B. Fowler Reports

The first party of English boys to settle on the new Fairbridge Farm school on Vancouver Island will arrive towards the end of June, it was announced yesterday by P. B. Fowler, when speaking briefly on the subject to members of the Rotary Club at luncheon today at the Empress Hotel.

The school authorities have acquired 1,000 acres of land on the Ketchikan Road and the school buildings will be made immediately.

Mr. Fowler stated:

"We asked Rotarians to extend kindness and sympathy and understanding to these 'young pioneers' when they arrive on the island in a few months from now."

VOCATIONAL SERVICE

Rotarian W. W. Emerson of Whistler, advertising manager of the Country Guide and former governor of District No. 4, was the guest speaker at today's luncheon of the club. He spoke of vocational service and how it affects Rotarians.

"Vocational service has for its primary purpose the successful operation of business," Mr. Emerson said. "But despite codes of ethics there is more unemployment in the world today than ever before. When corporations act for individuals they are less ethical. There is too much shifting of responsibility from individuals to the masses. Rotary has made a notable contribution to vocational service, but greater worlds to conquer still lie ahead."

Mr. Emerson said vocational service was the foundation of Rotary success. If he had to place any of the ideals of Rotary on top he would choose vocational service. It stood for the continued and successful operation of business, he said.

ECONOMIC CONTACTS

"In England," Mr. Emerson stated, "Rotarians talk international service to us. But among themselves they talk vocational service. International service is really, after all, based on economic contacts. European Rotarians are vocational people as the Americans are vocational people. The foundation on which good international service is built. The problem is to find a way to solve it."

Mr. Emerson said vocational service was the foundation of Rotary success. If he had to place any of the ideals of Rotary on top he would choose vocational service. It stood for the continued and successful operation of business, he said.

RECONSIDERATION

The council unanimously passed a resolution suggested by Reeve Crouch that unless the city would grant the permission as originally requested, the municipality might find it necessary to close the road.

The highway in this section is being slowly eroded away by the sea and the municipality considered immediate action was necessary. It was proposed to relocate the road by putting it through the mountain side a few feet from the present road.

The closing of the highway would mean shutting off communication between Mount Douglas and Cordova Bay via the present Marine Drive, and would mean this scenic route would have to be altered via Blenkinsop Road.

HAS PLAN TO
DIKE RESORT

Saanich Council Hears Engineer's Scheme to Improve Island View Beach

An extensive scheme for diking the flooded marshlands adjoining Island View Beach, popular Saanich summer resort, which lately has been overrun with mosquitoes caused by several heavy floods which did considerable damage to property, was presented to the municipal council by H. H. Allen, municipal engineer, yesterday evening.

In a cleverly prepared plan, which demonstrated both artistic ability and draftsmanship and brought praise from the council, Mr. Allen outlined the scheme. It is estimated to cost approximately \$4,000, and would be paid for by annual levy per acre on the twelve parcels of property fronting on the sea.

Mr. Allen's suggestion was to construct 1,700 feet of cribbing on the lower levels of the frontage and have the section within this area drained off by a 4,000-foot ditch which would have its outlet into the sea through the beach, and was a serious detriment to property owners.

BASES OF PAYMENT

The total area fronting on the water is 150 acres, divided into various-sized parcels. On the basis of paying for the scheme over a period of ten years, it was estimated the annual cost would be \$399.50 for the 150 acres, which would be borne proportionately by the individual properties. Over twenty years, the annual levy would be \$299.50.

The dikes would be constructed by the municipality, and it is felt would be amply suited to hold back the average winter sea pounding on this beach, which formerly has been responsible for damage and flooding which has impaired the attractiveness of the beach, and was a serious detriment to property owners.

6 Years Without A Decent Meal

Your stomach could not possibly "boon" you more completely than did the stomach of Mr. J. H. of Dudley, England. Yikes, like thousands of others, found renewed health in Maclean Brand Stomach Powder. "I have not been able to eat a decent meal for 6 years," he writes, "but after taking Maclean Brand Stomach Powder I can now eat a good meal without giving any pain."

Maclean Brand Stomach Powder is made from the formula of a famous London, England, Hospital. It is widely used in English Hospitals. Its success in bringing relief has been proved in thousands of cases of indigestion, heartburn, flatulence, gas, dyspepsia and many other forms of stomach trouble. Get Maclean Brand Stomach Powder from your druggist. Look for the signature "Alan C. Maclean" on the packet. In London, 7/6 (or 10/-) never sold lower.

Brentwood

Members of the Sluggish Memorial Baptist Church and Young People's Society met Thursday evening in the church parlor in honor of Mrs. Lloyd Snyder, formerly Miss Alma Meyer. At the close of the regular meeting of the Young People's Society, Albert McCarthy, president, spoke in appreciation of Mrs. Snyder's active work in the society. He was followed by W. H. Brown, superintendent of the Sunday School, and E. V. Apps, pastor, both expressing their appreciation of her faithfulness and service in both these branches of the church. Mr. Apps, on behalf of the Young People's Society and Mission Circle presented Mrs. Snyder with a handsome chest of drawers. A social hour followed and refreshments were served.

Wesleyan Women's Institute will hold its regular monthly meeting at the Institute Hall, Tuesday, April 9, 8 p.m. Mrs. Jackson of the Saanich Health Centre, will be the guest speaker.

Maclean Brand Stomach Powder

Prepared in the Laboratory of MACLEAN'S LTD., London, England. Distributed: The King Appliance, 100 Abbott Ave., Victoria.

DO YOU EVER
OVER-INDULGE?

Over-eating and drinking usually mean a bad night and an unpleasant morning after. But not for those who know the "cheer-up" value of Eno's "Fruit Salt". As far back as the 18th century, when eating and drinking were favourite indoor sports, Eno saved the old-timers many a sleepless night, many a bad morning after.

A dash of Eno in a glass of water, morning and night, goes a long way in offsetting the effects of over-indulgence. Eno sweetens the stomach, sharpens the appetite, keeps the intestines free from poisonous waste, and makes you feel good all over. Eno forms no habit. It is pleasant to take and acts gently, normally, effectively.

JOY-RIDING
ELIMINATED

Saanich Council Issues Ultimatum to Operators of Municipal Cars

Employees of Saanich who may or may not have been in the habit of utilizing municipally owned cars for joy-riding at night and on Sundays, were given notice by the council yesterday evening that the practice must be stopped and would not be tolerated.

A motion sponsored by Council E. C. Warren, Ward Two, and seconded by Councillor A. G. Lambrecht, Ward Three, to this effect was unanimously endorsed after a somewhat heated discussion in which the use of cars by certain employees was defended while others were accused of taking their families out for week-end rides.

Councillor Warren said he had heard reports of municipal cars being seen on island, on the Malahat and at the Six-Mile House.

With Councillor Lambrecht he made criticism of use of the cars by the nursing staff, but it was explained this was necessary owing to the system under which the nurses were kept on duty at night.

The council also supported Councillor Warren's resolution to have all municipal cars labelled as such in each black letter.

Dealing with cars of municipal employees, Councillor Lambrecht sponsored a motion to reduce the medical health officer's salary from \$2,000 a year to \$1,500, including car allowance. Seconded by Councillor Warren, the resolution received no other support from the council.

EXECUTION IN
QUEBEC TO-DAY

Canadian Press
Campbell's Bay, Quebec, April 5.—Michael Bradley was hanged today for the murder of five of his relatives at Demers Centre, Alameda Island, Que., in July, 1922.

The execution was conducted under the supervision of Chief Deputy J. Belanger of Montreal, who was assisted by Dominick Sloan, high sheriff of Pontiac County.

Arthur Ellis was hanged.

TOO HEAVY LOAD RESULTS IN FINE

New Westminster, April 5.—A fine of \$10 and costs was imposed on the Fraser Valley Freight Lines Limited when they pleaded guilty in district police court here yesterday to carrying an excessive load over the Fraser River Bridge.

The truck in question carried 2,510 pounds over the maximum load.

CHEMISTRY IS
TALK SUBJECT

"Some of the Advancements of Chemistry" was the subject of the talk by E. J. Savannah of the Victoria College faculty, given to members of the Rotarians' Club at their dinner meeting in Spedder's Cafe yesterday evening.

Mr. Savannah traced chemical development from the early ages to the present day, and related several interesting experiences in chemical research during the Great War.

W. H. Stannett, winner of the club bowling tournament, received the Newbury Cup during the evening. Rev. Canon A. del. Hanna, chaplain, made the presentation.

The club decided to lend its support to the May 24 celebrations by entering a float in the parade. The date for the annual banquet was set as April 27.

Cenotaph Incident
In Vancouver Ended

Canadian Press
Vancouver, April 5.—A charge against Albert Duffy of maliciously destroying property, laid against him in connection with removal of a wreath from the Cenotaph here, was dismissed in police court yesterday.

Owing to the absence of the German cruiser Kaserlohn, whose captain placed the wreath at the Cenotaph, ownership of the wreath could not be legally determined and the charge had to be withdrawn.

Norman Lagrange, charged with creating a disturbance in connection with the same affair, was sentenced to the one day he had spent in jail.

Shilling has been popular recently near Champlain, Montreal.

Dr. WERNER'S POWDER FOR HOLDING TIGHT FALSE TEETH

No slipping or clicking—no clicking when you use this grand powder that most dentists prescribe—it's a joy to all and the largest seller in the world—leaves no colored, gummy taste—all drug stores.

PROGRESS

Is Best Measured by Methods of

TRANSPORTATION

- The truest gauge of civilization is the development of its transport facilities.
- Which fact augurs well for the progress of Vancouver Island—and takes it forever out of the pioneer class.
- Because the island is served by a modern motor coach service. The "Coach Lines" maintains freight schedules at low rates to all points on Vancouver Island.
- TRAVEL BY BUS—for comfort, convenience and economy.

MEDICAL OFFICERS' TESTS PROVE

"40 Boys and Girls Gain Weight"

THE HEALTH benefits to be derived by children when using 4X TOASTMASTER Bread (containing a liberal percentage of the new Soyolk Flour) in place of ordinary white or brown wheat bread, is amply proved by a test recently made in England. . . Twenty boys and twenty girls were given bread made with Soyolk Flour over a period of six months, and their average gain in weight was 45 per cent more than a similar group fed on ordinary bread.

- The 4X Toastmaster Loaf makes the most delicious golden brown toast. Your 4X driver or dealer can supply you, or

Outstanding features such as—tub mounted on rubber, motor mounted on rubber, which eliminates all vibration; finger control, etc. Turn in your present washer for one of these. "The Bay" is sole agent for Connor Washers.

Wall Street Swings To Higher Levels In Heavy Turnover

Associated Press
New York, April 5.—The stock market got a foothold on recovery today in one of the most active sessions in some time. The forward movement was led by the utilities, but rails later offered strong competition and industrials were not far behind. The close was firm. Transfers amounted to 1,400,000 shares.

The rally was interpreted by many as a technical affair, although brighter business and trade news and the congressional compromise on the administration work-order bill helped to improve sentiment.

While extreme gains were checked by late-minute profit-taking, shares up fractions to two or more points included United Corporation, preferred, Sears Roebuck, Union Pacific, U.S. Steel, General Motors, Chrysler, American Woolen, Sears Roebuck, DuPont, and Permutit and U.S. Smelting.

Some of the low-priced utilities were unusually active. Common stocks and securities common appearing in one block of 20,000 shares at a small advance.

Winnipeg Futures Follow Downtrend In Grain Markets

INDUSTRIALS CLOSE STRONG

Canadian Press
Winnipeg, April 5.—Wheat prices closed on the Winnipeg Grain Exchange to-day, in common with other world markets, but traders turned it a "natural reaction" from the recent advance. Values closed 1/2 cent lower, May at 95 1/2, and July at 95 1/2, cent.

Coincident with higher closing in currency markets, which led to Liverpool's sharp price break, a half cent advance in the Canadian wheat, but for Canadian wheat, which in the past few days, sales were small and scattered.

Future in the English market closed 1 1/2 cent lower, the decline being mirrored in other markets. Buenos Aires, a half-cent off at the opening, extended its loss to 1 1/2, cent at noon. Chicago at one time was down 1 1/2, cent.

Corn grain prices declined sharply with wheat, all grades losing more than a cent. Cash grain, however, continued firm.

WORK RUSHED ON NEW SHIP

Ss. Queen Mary Rapidly Taking Shape on Clyde For Maiden Voyage Next Year

London, April 3. — Work on the Queen Mary is well in advance of schedule, according to dispatches re-

Over five months have now elapsed since the giant vessel was named and launched by the Queen. Within sixty-seven seconds from the moment of launching this great 40,000 tons of

The main work accomplished during this period has been the installation of machinery and auxiliary equipment, some of these parts weighing as much as 300 tons.

The immense twenty-seven boilers are in position. Occupying five rooms in the machinery spaces, these boilers were slung on board by a powerful crane and hoisted into position along a "slaunching derrick." Animate

and huge turbines. The work of the auxiliary machinery which assists in propelling the main engines is also now practically completed. This job

included fitting over 100 different types of pumps as well as forced-draft fans, and a variety of other equipment. In addition, there are 1000 draught gauges, smoke indicators and oil fuel heating units.

MILES OF WIRING

An important task was the installation of the turbo-generators in the engine room. As the ship's power stations, there will be three turbo-generators supplying power to the passenger accommodation and public rooms, while in the other will be four for the wireless. It will supply the main machinery. In each room an immense switchboard has been erected, while sixteen switchboards were set in position on the main deck cap. Main cap will carry electrical energy throughout the vessel or

that it will not be possible to hold

then complete aboard the ship. In stead they are being assembled in sections and will actually be built up on the ship. The fore funnel will not will be seventy feet in height from the boat deck and 130 feet from the keel, while the other funnels decrease in height. Silencers, in shape of their greatest diameter is thirty-two feet. Their circumference is 100 feet and three Royal Scot engines, placed abreast could be run through each funnel.

Two immense steel masts have been completed and are now ready for erection. Their height being 150 feet from the keel.

An immense amount of work has yet to be accomplished during the next twelve months before the Queen Mary makes her maiden voyage. The ship will have the command of a large army of workmen spreading over the keel and hull.
